Flanges | Industrial Forgings | Machinery Parts |
OEM Forgings Parts

Material: Cast Iron, Steel, Aluminium alloy and brass.

FORGING PARTS

Forging is a metal forming process in which heated metal billets are shaped under high pressure to achieve the required dimensions and mechanical properties. Compared with casting parts, forged components offer higher strength and longer service life.

Hot Forging Parts

Cold Forging Parts

Precision Forging Parts

Carbon Steel Forgings

Stainless Steel Forgings

Flange Forgings

Aluminum Forgings

Brass Forging Parts

Automotive Forging Parts

At FLUIDO, we provide one-stop custom forging solutions covering mold design, billet cutting, forging, CNC machining, heat treatment, surface treatment, and quality inspection. Our experienced engineering team selects the most suitable forging process according to the material, structure, quantity, and application requirements of each project.

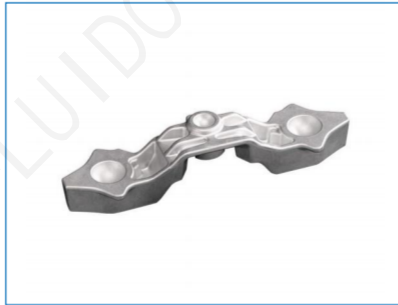

Forging Parts

FLD001 Automotive Forging Parts

- Size: According to drawings
- Material: Customized

FLD002 Motorcycle Forging Parts

- Size: According to drawings
- Material: Customized

FLD003 Bicycle Forging Parts

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD004 Agricultural Forgings Parts

- Size: According to drawings
- Material: Customized

FLD005 Mining Machinery Forgings

- Size: According to drawings
- Material: Customized

FLD006 Carbon Steel Forging Parts

- Size: According to drawings
- Material: Customized

FLD007 Alloy Steel Forging Parts

- Size: According to drawings
- Material: Customized

FLD008 Stainless Steel Forging Parts

- Size: According to drawings
- Materials: Customized

FLD009 Hot Forging Parts

- Size: According to drawings
- Material: Customized
- Process: Forging

Forging Parts

FLD010 Cold Forging Parts

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD011 Die Forging Parts

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD012 Free Forging Parts

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD013 Flange Forgings

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD014 Gear Forgings

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD015 Wheel Forgings

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD016 Forged Steel Parts

- Size: According to drawings
- Material: Customized

FLD017 Forging Small Parts

- Size: According to drawings
- Material: Customized
- Process: Forging

FLD018 Custom Forged Parts

- Size: According to drawings
- Material: Customized
- Process: Forging
